It is important to understand the investment returns for each investment option will vary from year to year. Also, the performance information provided below is historical. **Past performance does not guarantee how an investment option will perform in the future.** The value of these investments will fluctuate over time, and your investment in these options could lose money.

Benchmarks represent a historical measurement of performance for a specific segment of the financial markets over a specific period of time. Benchmarks are market indices and not managed investment portfolios. Benchmarks are presented for comparison purposes only and do not represent plan investment options.

To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. For information regarding individual investing and diversification, please go to the Department of Labor's website at <https://www.dol.gov/agencies/ebsa/laws-and-regulations/laws/pension-protection-act/investing-and-diversification>.

The cumulative effect of plan fees and expenses can substantially reduce the growth of your retirement savings. Visit the U.S. Department of Labor's website for an example showing the long-term effect of fees and expenses at <https://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf>. Fees and expenses are only one of many factors to consider when you decide to invest in a plan investment option. You may also want to consider whether investing in a particular option, along with your other investments, will help you achieve your retirement goals.

Plan and Individual Expenses that May Be Charged to Your Account

The plan hires outside professionals to provide administrative services that are needed for the plan to operate. The types of services that may be provided and the fees charged for those services are described in this section. Fees for services that benefit the plan as a whole (e.g., general plan administrative services and trustee/custodial services) will be shared by participants in the plan, only to the extent those fees are not paid by your employer, from plan forfeitures or from revenue sharing payments.

Revenue sharing payments are amounts paid by certain mutual funds and are part of the fund's Gross Annual Operating Expenses listed in the section of this Notice titled "Investment performance, expenses and fees." To the extent any of the expenses described below are paid, in whole or in part, from revenue sharing payments received by the plan, those expenses will not be charged to your account.

If any of the expenses described in this section are deducted from your account, such expense will be shown on your quarterly statement.

PLAN EXPENSES

Plan expenses are fees for services that are provided on a regular basis, such as recordkeeping and general plan administration. These services include such items as maintenance of individual information and investment records, daily accounting, processing investment and election changes, processing and allocating contributions, preparation of reports and individual statements, participant internet and telephone services, trust and custody services, and investment management services.

Only those expenses not paid by your employer, from plan forfeitures, or from revenue sharing payments will be charged to your account. If plan expenses are charged to your account, they will be assessed on either a *per capita* or *pro rata* basis. The expense payment method is identified below. For any expenses that are "Paid by Employer," the Employer may elect to have such expenses paid by the plan and in such event, the expense would be allocated on a *pro rata* basis (to the extent it is not paid by other sources). *Per capita* means an equal dollar amount will be charged to each participant's account. For example, if total expenses are \$10,000 and there are 100 participants, each participant's account would be charged \$100. *Pro rata* means a proportionate share of the fee will be charged to each participant's account based on the proportion that such participant's account balance bears to the account balances of all participants. For example, if the total value of all participant accounts (including your account) was \$1,000,000 and your account balance was \$10,000, an amount equal to 1% of the expenses would be deducted from your plan account.

Recordkeeping and administration fees: The annual fees for these services are estimated to be:

Description	Amount	Paid per capita/pro rata (if applicable):
Per Participant Fee	\$33.00 per participant	Paid by Employer

In addition to the regular administrative expenses described above, the plan may incur other administrative expenses for services that are not performed on a regular basis or the fees which are indeterminable, such as consulting, accountant's fees for audit of the plan's financial statements, custom reports or notices and other special or extraordinary services. These expenses are applied to your account in the same manner as the regular administrative expenses.

INDIVIDUAL EXPENSES

Individual expenses are fees that are applied for services or actions that are specific to your account. Individual expenses are charged to your account only if applicable:

Description	Amount
Distribution Fee, non-periodic	\$50.00 Each
Hardship Review and Validation	\$75.00 Each
QDRO Distribution Fee	\$150.00 Per Hour
QDRO Validation Fee	\$475.00 Each
Stop Pay / Re-Issue Fee	\$30.00 Each
